PROFESSIONAL EXPERIENCE

Freelance Data Analyst July 2025 – Present

- Provide ad-hoc data analysis and visualization using google sheets and tableau to offshore clients, utilize programming languages such Python for data cleaning and advance statistical analysis.

Business Analyst · Greenergy Development Corp. July 2024 – July 2025

- Utilized JavaScript with **Google Apps Script** to design and develop a tracking and approval system using the Gmail API, automated **6** procedures across the finance and procurement department. Streamlined processes with a data-driven approach for bottleneck analysis, resulting in improved workflow efficiency
- Designed a data retrieval algorithm and developed dashboards in **Google Sheets** and **Tableau** that allowed the top management to monitor **KPIs** and **KRAs** of each department which resulted in **20%** faster completion of deliverables
- Perform **ad-hoc data analysis** and data-driven recommendations to C-level executives and department heads for business problem solving and analysis

Jr. Data Engineer · Climbs Life and General Insurance Cooperative March – June 2024

- Designed and optimized a deduplication algorithm for **12M** rows of data using Python that minimized client information search workload and data inaccuracy by approximately 30%
- Collaborated with a team of data scientists to design an **ETL** pipeline for scraping text data from 350 PDF files and a data cleaning process that utilizes regex to meet project constraints

ACADEMIC BACKGROUND

Bachelor of Science in Data Science Cum Laude

TECHNICAL TOOLS

| | |
|--------------------|--|
| Languages | Python, SQL, JavaScript |
| Developer Tools | Git, JupyterLab, VS Code, Google App Script, Streamlit, Google Workspace |
| Data Visualization | Tableau, PowerPoint, Excel, Google Sheets |

PROJECTS

Data visualization of PH REITs using Tableau for financials & operational performance tracking

- Gathered the data from tradingview, investing(dot)com and the company investor relations annual report and stored it in Google Sheets
- Utilized Tableau to design a dashboard for tracking both annual and quarterly revenue, dividend payments, EBITDA margin, GLA and other key REIT metrics.

Optimizing U.T.I Diagnosis with Machine Learning & A.N.N for Reducing Misdiagnoses

- Designed the objectives, methodology pipeline and system architecture of the study
- Designed a custom data retrieval algorithm to extract and load the required data from various sources
- Implemented hyperparameter tuning using Optuna framework and built a hybrid voting ensemble model with optimal hyperparameters
- Designed a data validation pipeline and integrated a MySQL database to the web application
